

Magic Sing EG-18000 Wireless Karaoke Microphone

Singing is one of the favorite pastime and hobby to a lot people. Singing can be performed by anyone whether you're a kid or adult. One way to have an enjoyable singing session is by using the latest Enter Tech Magic Sing EG-18000. This new magic sing has a lot of exciting features and functionalities that will provide total music entertainment and satisfaction for everyone. The new Magic Sing EG-18000 provides the most crisp and clear voice sound that you could ever heard of. It is portable and easy-to-use Magic Sing microphone that carries a built-in 2,064 English songs from various artists of different genres making sure you never ran out of songs. One of the best things about this karaoke Magic Sing EG-18000 is that it comes with two (2) WIRELESS microphones that have a distance range of up to 35 feet from the base. A remote control is also included in the package for a hassle-free navigation of songs. Another incredible feature, is that this magic sing microphone also has a one of a kind Singing Tutor function. The lyrics are highlighted with a specific color to guide the user. For those who sing too fast or too slow, the lyrics will turn color GREEN while BLUE is for pitch that's too low and RED for too high. The color BLACK is an indication for perfect vocalization. Moreover, this hi-tech microphone karaoke can record singing talent with its 8-minute recording and playback function, which provides entertainment by listening to your friends golden voice over and over again. It also has 4 song chip expansion slots wherein users can upload more songs that they like. Key features of Magic Sing EG-18000 Wireless Karaoke Microphone 2008 Edition:
